## Chase signs another deal

Fresh on the heels of having signed a 10 year, 3 album deal for 39 countries with AGR/Universal Europe last week, Canadian Country Rocker Kevin Chase has signed another deal, this time with Wind Mobile and it's parent affiliates. The agreement covers ringtones, full tracks, ringback tones, riff tones, monotones, polytones, mp3/Truetones, animations, video clips, wallpapers, such as album artwork and artist pictures, java/mobile games, and applications.

“In today’s society, a successful artist has to be available to the fan base on all fronts,” says Chase, “and I am excited to be bringing the Kevin Chase experience to a whole new level through Wind.”

Chase continues to work on the first video for the European release of the album “Hold On Tight”, which will hit store shelves there this summer.
